Download and Installation

Users can search for applications from the store by searching for the keyword '**HumanOS**' and then click to install the application on their device.

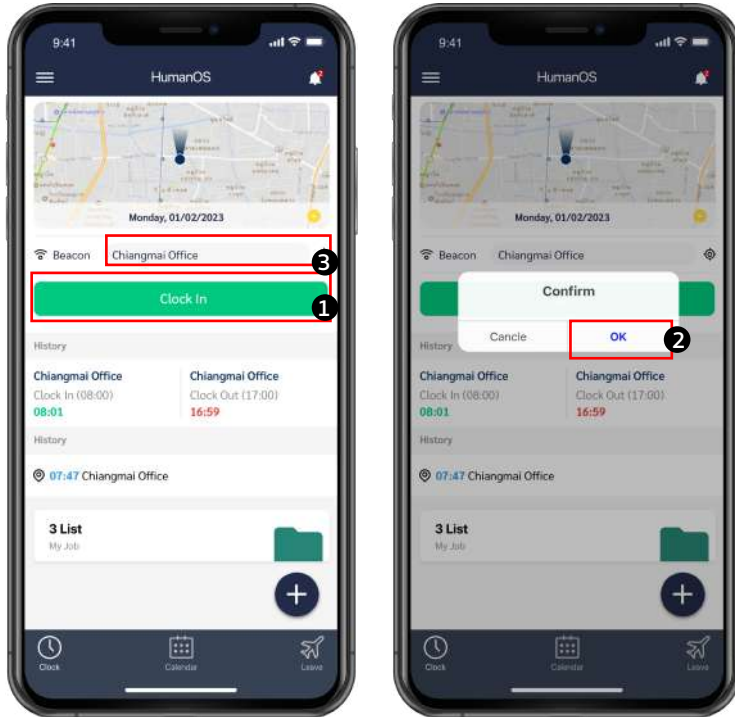

Login

1. Upon the first login, the system will request permission to enable notifications. Please tap 'Allow' to enable notification functionality.
2. Next, enter your email and password.
3. Grant the application access to your location and Bluetooth for clocking in and out.

Time Attendance

Employees can clock in and out through the mobile application, supporting both office and customer site attendance within a 100-meter radius. Administrators can define specific clock-in and clock-out locations, and if employees are not within the designated radius, they will not be able to log their working hours.

Clock in - Clock Out (Single-button)

1. Once logged in, users can clock their working hours in two ways: by pressing '**Clock In**' to record their time of arrival, and '**Clock Out**' to record their time of departure.

When '**Clock In**' is pressed, the button will automatically switch to '**Clock Out**'.

2. Press 'Confirm' to finalize the time recording with the system.

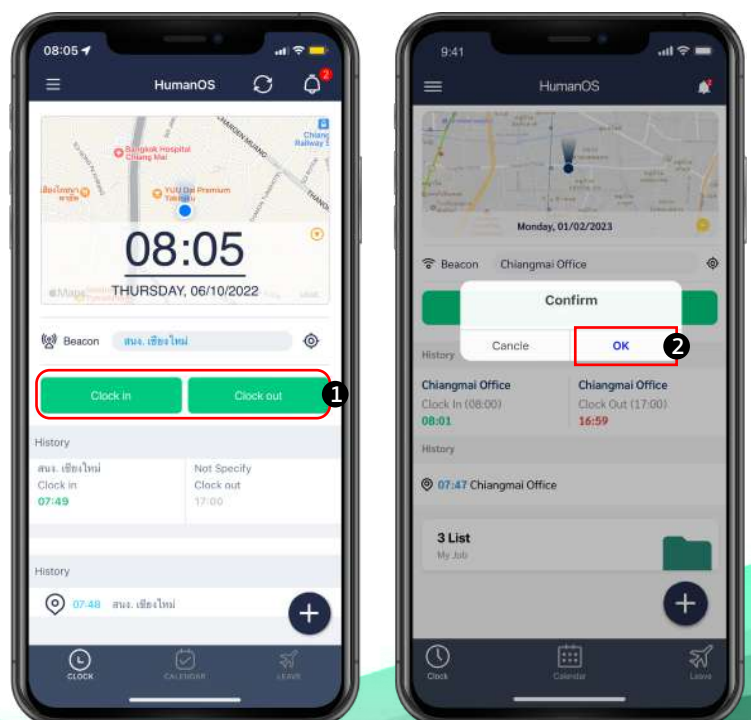

3. If you need to change the location, you can either select  to refresh the system's location

Clock in - Clock Out (2-button)

If you have a work schedule with more than one shift per day, you can notify HumanOS to enable the additional shift functionality immediately, free of charge. Please contact us via LINE @humanos.biz or call 099-5051007.

1. Press the 'Clock In' and 'Clock Out' buttons to record your working hours. In the case of multiple shifts per day, you can clock in multiple times. The system will automatically select the most appropriate clock-in time for you.

2. Press 'Confirm' to finalize the time recording with the system.

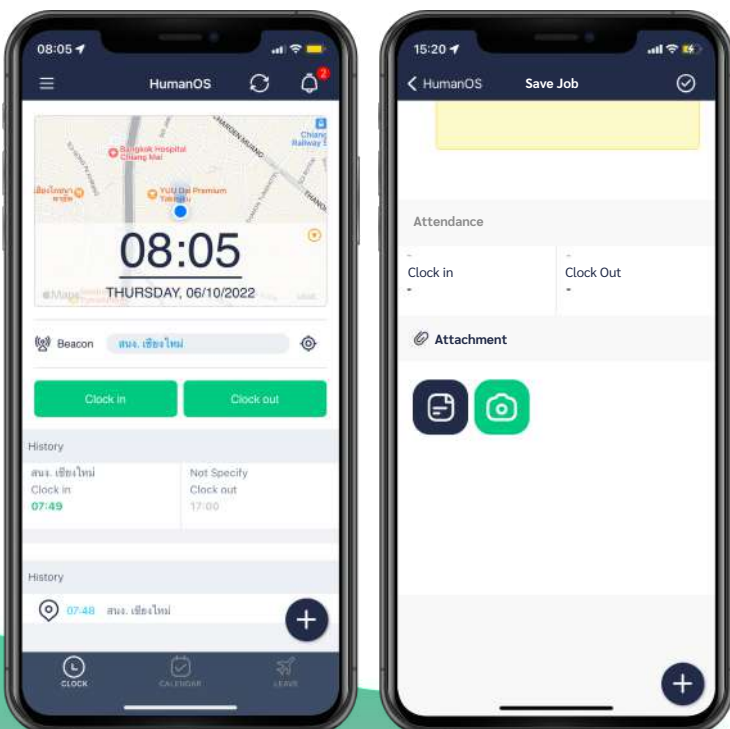

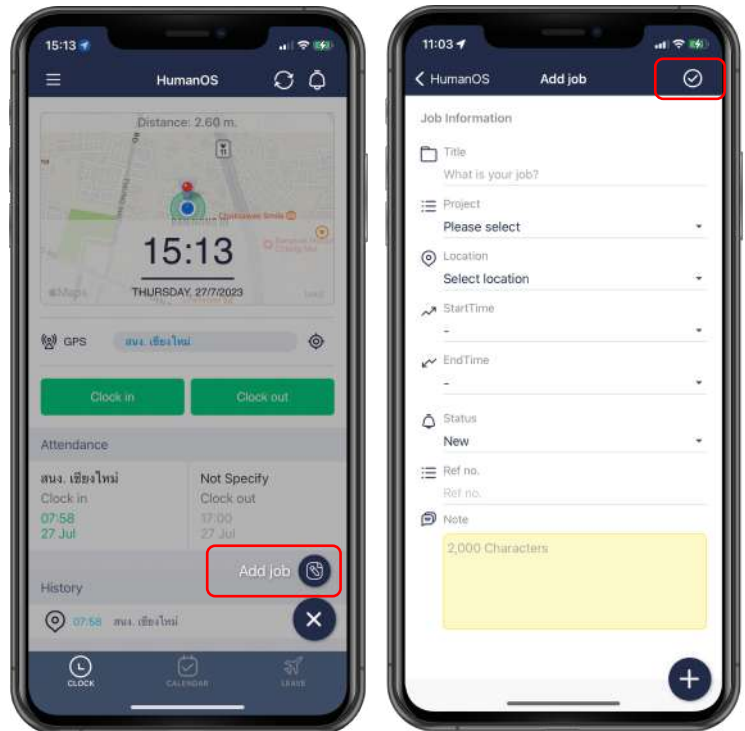

Job Detail

Recording online work or daily activities allows you to specify the work status, start date, project, job details, and the number of working hours. For new work records, users can create them in the 'Time Tracking' menu or log past work activities in the 'Calendar' menu.

Add New Job

1. Select the **"Attendance"** tab and press +
Then choose the **"Add New Job"**
2. Fill in the work details, such as job title, project, location, start time, end time, work status, reference document number, job description (additional notes), and actual clock-in and clock-out times.
3. Press the **'Save'** button to create the new work record.

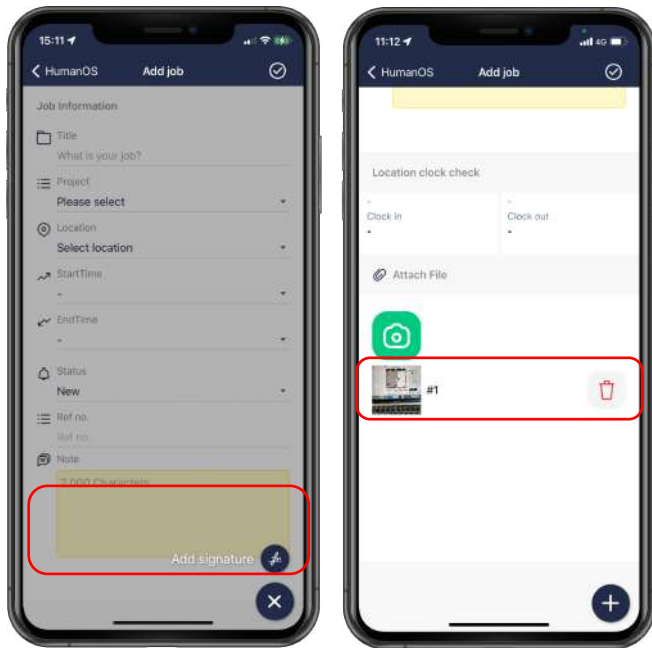

Note: If users want to attach a signature or images, press. the option and select the desired item."

Clocking in at the workplace.

After completing the new work entry, the system will automatically record the current location and clock-in/out time, and it will not be possible to edit it retrospectively.

1. Scroll down to the **'Workplace Clock-in Time'** section.
2. Press **'Clock In'** or **'Clock Out'** based on your current activity.
3. Choose the workplace location from the available locations.
4. Press **'Confirm'** to use the selected location for clocking in/out.

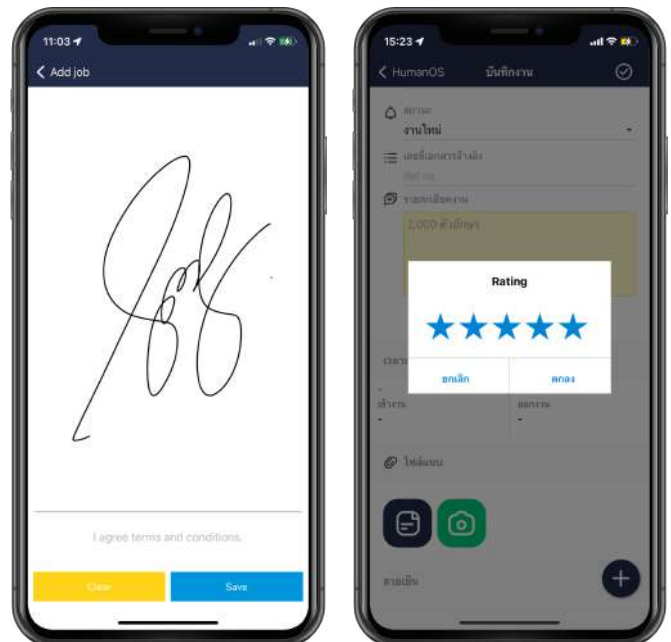

Add Attachment Photos

1. Press **+** and Select menu **"Photos"**
2. Select an image from the phone's gallery or take a photo.
3. Save Photo
4. In case you want to delete a photo, please go to the **'Photos and Signatures'** section, then click on **'Delete'** on the photo you wish to remove."

Adding a signature and Rating score

1. Press **+** select **"Add Signature"**
2. Sign on screen and then press **"Save"** or Press **"Clear"** if you wish to add a new signature.
3. Rating score and press **"save"**
4. If you want to delete a signature, please go to the 'Photos and Signatures' section, then click on 'Delete' next to the respective item.

Edit Job Detail

1. Select the task from the **"Attendance"** menu tab.
2. The system will display the work details.
3. Edit the necessary work details.
4. Press. **✓** to save the edited work.

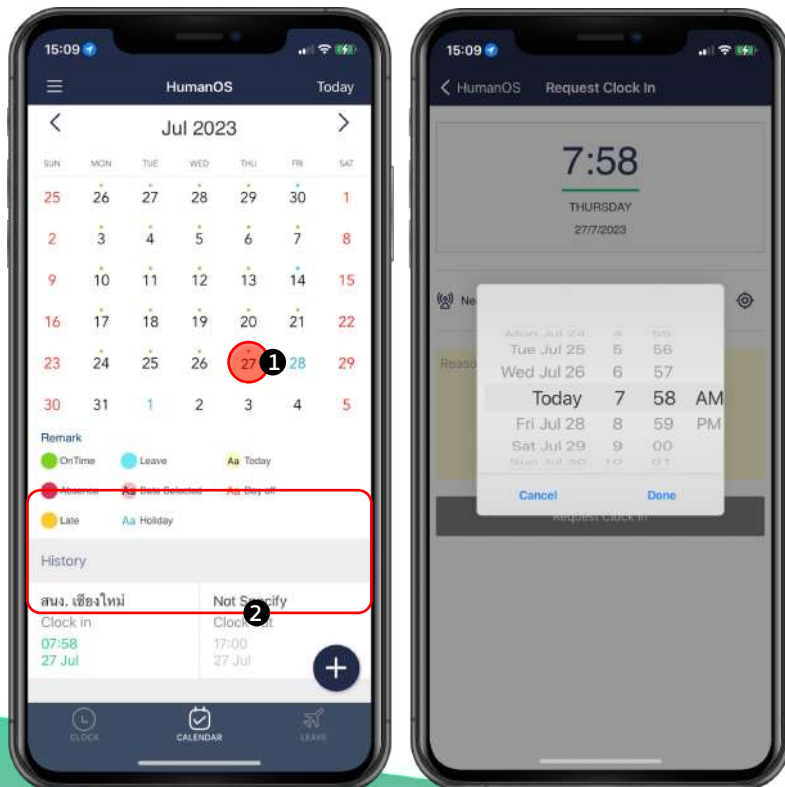

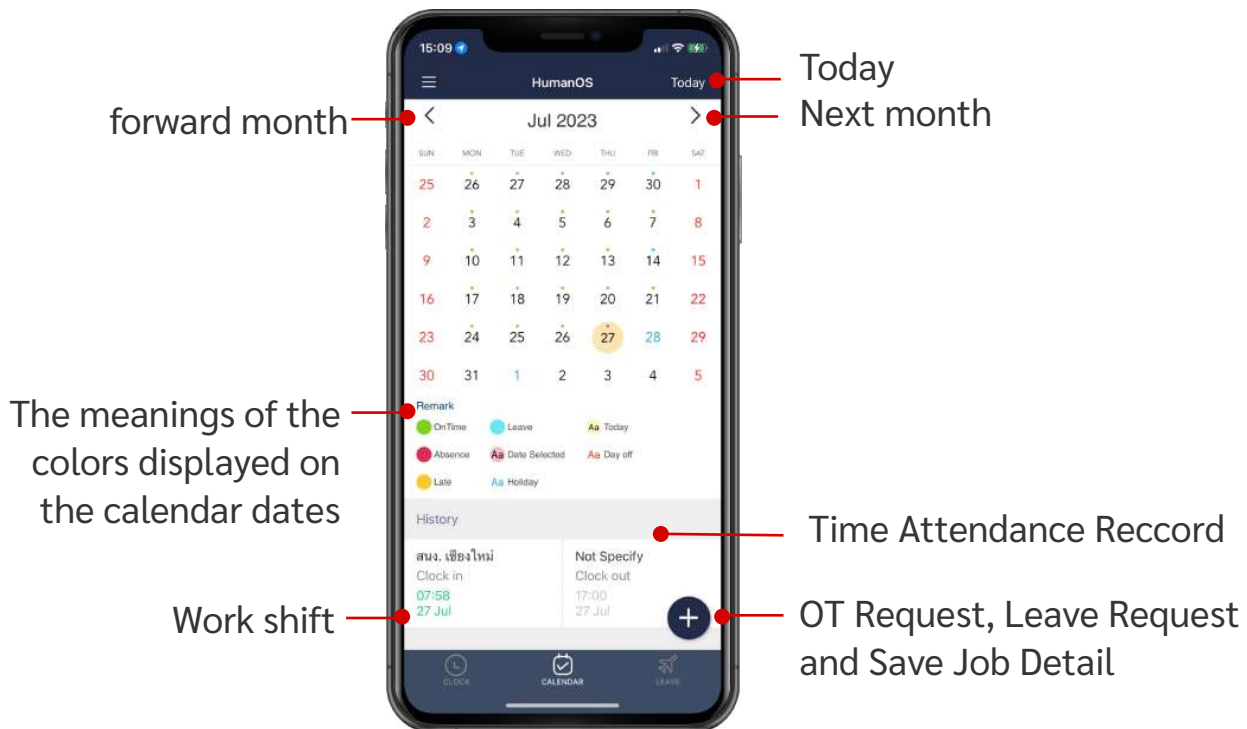

Delete Job Detail

1. Select the task from the "Attendance" menu tab.
2. The system will display the work details.
3. press **🗑** on top - left
4. press **"Yes"** to confirm system

Calendar

It is a menu that displays the activities of employees that occur each day, such as clock-in/out, leave days, employee holidays, recorded tasks, requesting retroactive time logging, requesting online leave, and requesting time correction

Requesting retroactive time / Request edit time attendance

1. Select the date you want to request retroactive time logging from the calendar.
2. Click on the clock-in/clock-out card you wish to request.
3. Choose the date and time, then click 'Done.'
4. Fill in the reason for the time request.
5. Press **"Request Clock Time"**
6. The system will notify the supervisor to approve the request.

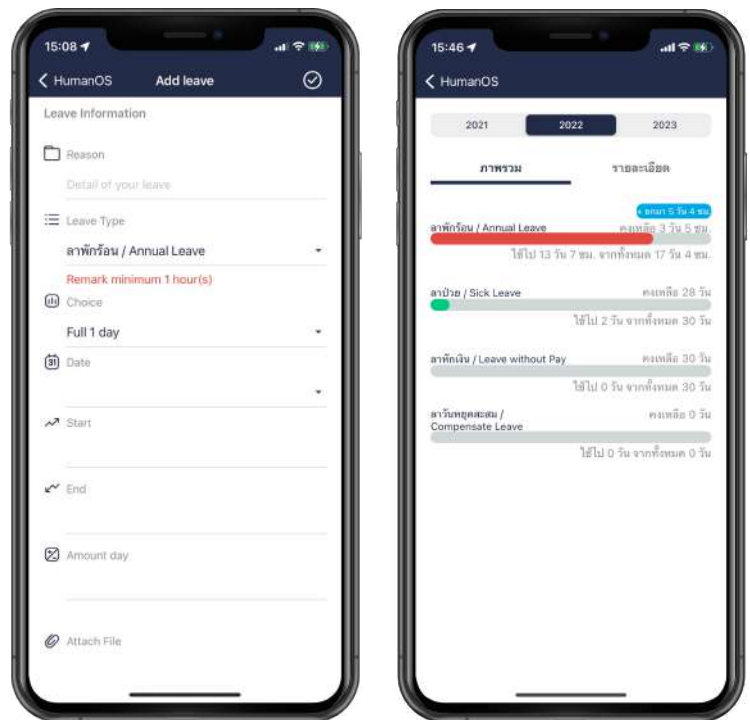

Leave Online

Employees can submit leave requests online through their smartphones, supporting both advance and retrospective leave applications. In the case of sick leave, they can attach a medical certificate. The system allows checking of remaining leave days and provides instant approval notifications through notifications.

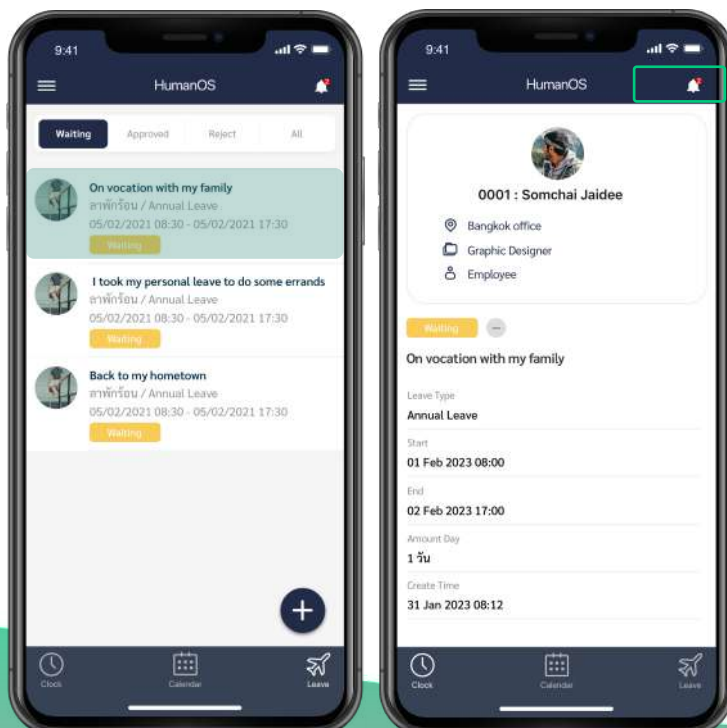

Add New Leave

1. Go to the '**Leave**' tab and then click 
2. Fill in the details of the leave request, such as the reason for leave, leave type, sub-leave type, number of leave days, date, and attachment of files, for example, a medical certificate.
3. Click  to submit the online leave request.

Summery Leave Report

1. You can check the remaining leave days by going to the '**Leave**' page and clicking  on the right side of the screen.
2. On the '**Request Leave**' page (bottom section), the system will calculate the remaining leave days based on the approved leave statuses.

Edit Leave Request

1. Go to the '**Leave**' tab.
2. Select the leave request you want to edit.
3. The system will display the leave details. Click .
4. Edit the details as needed.
5. Click  to save the edited leave request.

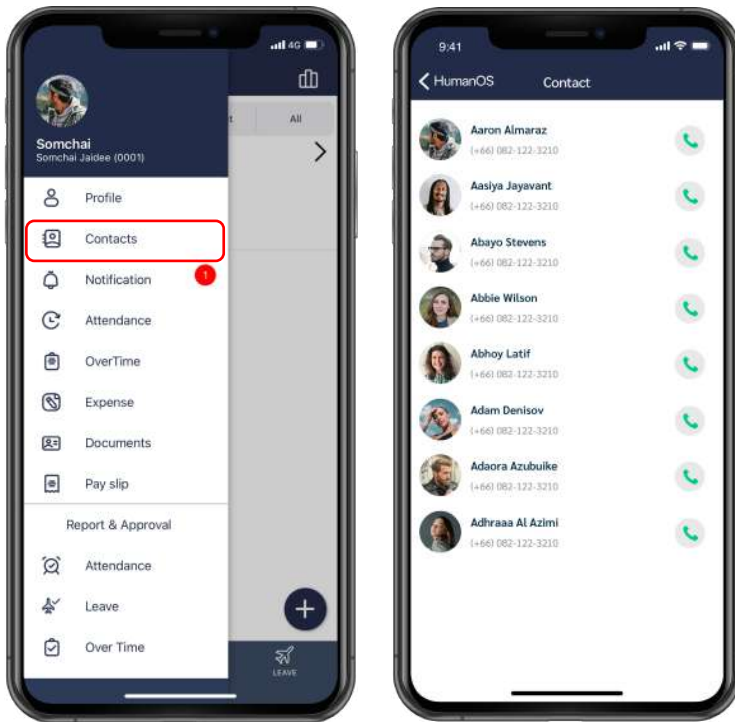

Delete Leave Request

1. Go to the '**Leave**' tab.
2. Select the leave request you want to edit. Click .
3. Press  the trash bin icon on the top right corner.
4. Click "**Yes**" to confirm the deletion.

Contact

The list contains internal personnel data within the organization and can be expanded without limitations. It can be uploaded from an Excel file and allows quick access to contact through phone calls, emails, names, surnames, Facebook profiles, LINE, Skype, or other means, enhancing convenience and efficiency in communication.
